MADE TO MAKE IT YOUR OWN

POLARIS ENGINEERED ACCESSORIES™ ARE DESIGNED WITH INDUSTRY-EXCLUSIVE TECHNOLOGIES RIGHT ALONGSIDE YOUR RANGER®, GUARANTEEING QUICK AND SEAMLESS INSTALLATION AND A PERFECT FIT EVERY TIME.

CAB READY

Dedicated mounting points are engineered directly into the vehicle, allowing for quick and easy component integration. This has eliminated the cab framework entirely, which provides a much larger field of vision for riders.

EASE OF INSTALL

Doors, roofs, windshields and rear panels integrate effortlessly, thanks to the revolutionary Lock & Ride® Pro-Fit cab system. Everything installs in minutes without the use of any special tools.

MODULARITY

How you customize your cab is entirely up to you. All of our RANGER® cab components complement one another, so the options at your disposal are nearly endless.

LOCK & RIDE™

Exclusive, and engineered into every Polaris® vehicle, Lock & Ride® has revolutionized off-road vehicle customization. Every Lock & Ride® accessory is specifically designed to install quickly, without tools and without hassle.

COMPLETE CHOICE

Polaris' exclusive Lock & Ride® Pro-Fit Cab System allows you to outfit your RANGER® with the cab components of your choice. Doors, windshields, rear panels and roofs integrate seamlessly and install without hassle.

"THE MAJOR CHALLENGE IN DESIGNING THE LOCK & RIDE® SYSTEM IS GETTING ALL THE ACCESSORIES TO WORK WITH THE SAME LOCK & RIDE® PATTERN WHILE STILL BEING ROBUST ENOUGH TO HANDLE THE LOADS."

TOP 4 GREAT NORTH AMERICAN TRAIL ALTERNATIVES

Dune riders who love Glamis, CA need to try **Oregon Dunes National Recreation Area**.

Trail riders might know about Brimstone, TN, but have you heard about **Taylor Park, CO?**

Desert riders flock to Moab, UT. The **Hualapai ATV Trails in Mesa, AZ** are an awesome alternative.

Paiute Trails, UT is popular. But the **Hatfield-McCoy Trails of southern WV** is a great ride, too.

HELMET SAFETY

A proper fit should be a little tight at first. It will loosen up a bit as the helmet is broken in.

There are three helmet safety ratings you'll commonly see:

- DOT (US Department of Transportation)
- ECE (UN Economic Commission for Europe)
- Snell (a non-profit organization dedicated to helmet safety)

Never buy or sell used helmets. The pads have formed to a specific head shape, and will not work properly on a different head.

Helmets are designed to endure a single moderate impact. If involved in any significant crash, replace your helmet.

YOUTH

INTRODUCING KIDS TO RIDING

- » Before anything else, make sure they have a youth helmet that fits properly.
- » Don't start your kids on a machine that's too powerful. Have 6-8 year olds begin with a 50cc ATV and a RZR® 170 for those 10-12.
- » Invest in quality bumpers & brushguards. Little accidents are going to happen.
- » Understanding terrain is essential. Teach them how to read and react to changing conditions.
- » Keep it fun. After all, that's what off-road riding is all about.

YOUTH FLY® OFF-ROAD JERSEY / NEW

All the same great features of our full-size jersey in a youth size. Enjoy the comfort fit, high-flow ventilation, wide range of movement and convenient features in your choice of red or pink color schemes. Why should adults have all the style?
